

Why Get Money Out of Politics?

Our political leaders are too beholden to special interests and their wealthy donors to truly serve the needs of the American people.

The dominance of money in politics not only corrupts government itself, but also blocks effective action on virtually every major issue Americans care about, from big bank bailouts to affordable healthcare to our personal freedoms.

We believe the only force capable of challenging the corrupting influence of moneyed special interests is a diverse, non-partisan, grassroots movement. New Mexicans for Money Out of Politics (NMMOP) is helping to build a Democracy Movement to meet this urgent need.

Help Make Government Work for ALL the People

If we really want a government of, by, and for the people, it is up to us to make it happen. Let's join together to make government work for ALL of us.

*NMMOP was originally founded in 2016 to fulfill the ideas in the book **Breaking Big Money's Grip on America: Working Together to Revive Our Democracy** by Bruce Berlin. NMMOP has formed an alliance with American Promise (AP), a national organization promoting a 28th Amendment to overturn Citizens United v. FEC and other disastrous U.S. Supreme Court cases. We lobby our elected officials on this important issue, as well as on campaign finance disclosure, a state ethics commission, and other democratic reform legislation.*

government
work for
all the people*

Our Mission

New Mexicans
For Money Out of Politics
(NMMOP)
is a transpartisan,
non-profit, grassroots organization.

Our mission is to remove the
corrupting influence of big
money in politics and
make the government work for
ALL the people of
New Mexico and our country.

Goals of New Mexicans for Money Out of Politics

- 1. Establish public financing** for all federal, state and local elections.
- 2. Enact a 28th Amendment** to the U.S. Constitution to restore the authority and create the responsibility of government to impose reasonable limits upon political campaign contributions and expenditures and providing greater disclosure and transparency.
- 3. Enact Lobbying Reform** at the federal, state and local levels so we, not the wealthy, are fairly represented, and to eliminate the “revolving door” between government and business.
- 4. Eliminate gerrymandering** (i.e. rigging) of congressional districts so that every citizen’s vote counts and we are all fairly and equally represented in Congress.
- 5. Protect and enhance the right and ability to vote** by eliminating tactics aimed at restricting voting, establishing laws that would make it easier to vote to register to vote, restoring the Voters Rights Act of 1965 and more.
- 6. Enact anti-corruption, ethics and conflict of interest laws** applying to federal, state and local executive officials, legislators and judges.
